

Building/Site Committee

The Busy Brains Children's Museum Building/Site Committee is responsible for evaluating potential sites for the Museum's first permanent home. Once the site is chosen, the Committee's focus will shift to site improvements and adjustments to make the space functional for Museum use, including integration of the exhibits and administrative space.

The Building/Site Committee will typically meet once each month from 7:45-9:00 p.m. (day to be determined by members involved) in Central Lake County. Each Committee member typically has one or two tasks to complete during the month. Specific Committee activities will be based upon the priorities at hand and determined at these meetings.

If you have any questions, or are interested in joining the Building/Site Committee, please contact:

Thank you.
